HOW TO USE THIS DOCUMENT

Treat the approved facts and rules in this document as the source of truth for the named product and India market. A statement not explicitly supported here is not automatically approved. Escalate unclear, outdated or conflicting information to the named owner before publication.

QUICK REFERENCE

- **Voice:** calm, clear, evidence-led and encouraging. Never shame customers or create urgency through fear.
- **Approved product facts:** 2.0% salicylic acid; 0.5% niacinamide; 100 ml pack; use directions are listed on page 3.
- **Never claim:** guaranteed acne-free results, overnight clearing, a cure for acne, or 100% removal of pimples.
- **Required action:** claims need a traceable approved fact or approved claim rule before they are published.

This is a fictional evaluation document created to test document onboarding and brand-compliance workflows. It is not a real product label, medical advice, or evidence of product performance.

01 Brand voice and messaging

Nila Botanics makes straightforward skincare for people who prefer clear explanations over dramatic promises. Our communication should feel informed, respectful and easy to understand.

Voice principles

- **Calm, not clinical:** explain ingredients in plain language; do not imitate a medical professional.
- **Evidence-led, not absolute:** describe what the product is formulated to do. Do not guarantee individual results.
- **Encouraging, not judgemental:** never imply that blemishes make someone unattractive, dirty or unhealthy.
- **Specific, not exaggerated:** use only approved ingredient percentages, directions and product details.

Terminology standard

PREFERRED TERM	AVOID	WHY
blemish-prone skin	problem skin; dirty skin	Respectful, non-judgemental wording.
helps cleanse the skin	treats or cures acne	Do not position this cosmetic cleanser as a medicine.
formulated with 2.0% salicylic acid	medical-grade acne treatment	Use the exact approved formulation fact.
supports clearer-looking skin	guaranteed clear skin	Avoid guaranteed outcomes.

Mandatory claim rules

RULE ID	REQUIREMENT	CHECK / RESPONSE
CLM-01	No guarantees or certainty about personal skin outcomes.	Flag guaranteed, always, never, zero-risk and equivalent wording. Rewrite as a qualified product description.
CLM-02	No overnight or fixed-time acne-clearing promises.	Flag overnight, in 24 hours, instantly and similar time-bound outcomes.
CLM-03	No cure, treatment, prevention or medical efficacy claims for acne.	Flag cure, treat acne, prevent acne and clinical/medical positioning. Escalate uncertain wording.
CLM-04	No unsupported superlatives or 100% outcome claims.	Flag best, number one, 100% removal and equivalent superiority claims unless separately substantiated and approved.

02 Approved product facts and claims

Product: Nila Botanics Clear Balance Gel Cleanser. Product ID: NB-CB-100. Market: India (IN). The facts below are fictional but deliberately structured like controlled internal product records.

Approved facts register

FACT ID	APPROVED FACT	SOURCE / SCOPE	VALIDITY
F-001	The formula contains 2.0% salicylic acid.	Formulation record FR-NB-014, version 3. Product NB-CB-100, India.	Verified 15 Oct 2026; review by 15 Oct 2027.
F-002	The formula contains 0.5% niacinamide.	Formulation record FR-NB-014, version 3. Product NB-CB-100, India.	Verified 15 Oct 2026; review by 15 Oct 2027.
F-003	Net quantity is 100 ml.	Approved packaging specification PK-NB-100, version 2. Product NB-CB-100.	Verified 15 Oct 2026; review by 15 Oct 2027.
F-004	Directions: apply to wet face, gently massage, then rinse thoroughly. Start once daily; increase to twice daily only if tolerated.	Product use and safety review UR-NB-008, version 1. Product NB-CB-100, India.	Verified 15 Oct 2026; review by 15 Oct 2027.

Approved claim language

- **Approved:** “Formulated with 2.0% salicylic acid and 0.5% niacinamide.” (Must match F-001 and F-002 exactly.)
- **Approved:** “A gel cleanser that helps cleanse skin and remove excess surface oil.” (Approved wording for this product only.)
- **Approved with qualification:** “Made for blemish-prone skin.” Do not add a promise of treatment, prevention or a particular result.

Not approved / not substantiated

- “Guaranteed acne-free skin overnight.”
- “Removes 100% of pimples in 24 hours.”
- “Cures acne” or “prevents acne.”
- “Dermatologist tested,” “clinically proven,” “hypoallergenic,” or “safe for all skin types.” No supporting study or approval is recorded in this document.
- Any ingredient percentage, pack size, clinical result, certification, award, ranking or customer statistic not listed in the approved facts register.

IMPORTANT

A formula fact does not automatically prove a consumer outcome. The presence of an ingredient is not evidence that the finished product cures acne, clears skin overnight or works for every person. Do not infer efficacy from ingredient percentages.

03 Visual identity and accessibility

Visual direction

The visual system should feel clean, warm and grounded. Use generous white space, clear hierarchy and restrained accents. Product imagery must show the correct pack and must not imply medical endorsement or guaranteed results.

COLOUR	HEX	USE
Deep navy	#203247	Primary text, headings and strong backgrounds.
Clay	#C46F55	Small highlights, links and accent rules.
Warm cream	#F8F4ED	Soft background panels.
Sage	#8A9B83	Secondary accent, used sparingly.

Typography and layout

- Use a clean sans-serif typeface. Use sentence case for headings and avoid decorative display fonts for essential information.
- Keep body text readable on mobile. Do not place long paragraphs over photographs or textured backgrounds.
- Maintain clear space around the logo equal to the height of the “N” in NILA. Do not stretch, recolour or add effects to the logo.
- Use the approved product name “Nila Botanics Clear Balance Gel Cleanser” on first mention. “Clear Balance Gel Cleanser” may be used afterward.

Accessibility requirements

- Provide meaningful alt text for informative product images; use empty alt text for purely decorative images.
- Do not communicate warnings, ingredients, prices or calls to action through colour alone.
- Maintain readable contrast between text and background; check small text and button labels separately.
- Add captions to spoken video content and ensure essential text remains readable in mobile crops.

04 Review, ownership and publication

Approval responsibilities

ROLE	RESPONSIBILITY
Brand Manager	Owns brand voice, terminology, visual rules and final publication sign-off.
Fact Owner	Verifies product facts, source records, market scope and review dates.
Content Creator	Prepares copy and resolves review findings without changing approved facts.

Publication checklist

- Every product claim is linked to a current approved fact or approved claim rule with the correct product and India market scope.
- No prohibited guarantee, medical, overnight, absolute or unsupported superiority claim remains.
- Product name, ingredient percentages, directions and net quantity match the approved record.
- Visual, accessibility and terminology requirements have been checked.
- A Brand Manager has recorded final approval. Unresolved findings are not treated as approved.
